

As you may know, the World Cancer Congress (<https://www.worldcancercongress.org/>) will take place from **from 17 to 19 September 2024 in Geneva, Switzerland.**

The World Cancer Congress is an opportunity to present the work of the IAEA Technical Cooperation Program with Member States on cancer control related projects to a worldwide audience of experts and public health practitioners. The World Cancer Congress aims to strengthen the participants' action and impact on national, regional and international scales through a multidisciplinary programme that features the latest successful interventions in cancer prevention, diagnosis, treatment and care.

The IAEA encourages Member States' counterparts to share their experiences and good practices during the World Cancer Congress 2024. Through Technical Cooperation Regional and inter-regional projects on human health, the IAEA will finance the registration fee and participation costs for attendance to the Congress for a limited number of participants who meet the following criteria:

- Be a representative of a national public entity or a civil society organization in an IAEA Member State.
- Have an [abstract submitted](#) (by **4 April 2024**) and accepted by the WCC organizers.
- The abstract should (i) be on a topic related to a recent/ongoing IAEA Technical Cooperation project on the integration of radiation medicine for cancer diagnostic or treatment, **or** (ii) relates to an area of achievements where the Member State benefited from imPACT Review, National Cancer Control Plan development, **or** (iii) describe successful resource mobilisation activities and/or partnerships for cancer control facilitated by the IAEA.
- Have their application submitted through the IAEA In Touch+ Platform **from 24 May to 14 June 2024** (<https://intouchplus.iaea.org/> under the event EVT2401885) and endorsed by the participants' National Liaison Officer for the IAEA.
- Eligible counterparts must attach to their application:
  - copy of their abstract,
  - email confirmation of abstract acceptance from WCC organizers, and
  - copy of the notification received from the organizers about the format of presentation of their accepted abstract.

Deadline for receipt of complete applications in In Touch+ is **14 June 2024**. After this date, the system will close and no further applications can be received. Incomplete applications will not be considered for financial support.

We would appreciate if you could disseminate this opportunity within the cancer control community in your country. This initiative is also published on World Cancer Congress
